I was in a car following what looked like Janel's dad back to a house and when I got there I thought I saw her mum but it was someone else. I saw a future style train or tram. I heard people say this is what they didn't want him following them back to his house and how did he know where they lived, I was in Janel's dad's green car it was daytime. I was in a city night nighttime we were looking for someone, we were at a place that looked like 801 motel on Cameron Rd opposite the hospital and that's all in reverse and all I can remember.
